

## Company Overview

Oak Real Estate Partners ("OAK") manages a vertically integrated, private credit strategy targeting small to mid-balance (\$2-\$20 million loan size) short-duration (12-36 months) commercial mortgage assets that are senior secured and fully collateralized by high-quality income-producing properties.

### Increased Banking Regulations

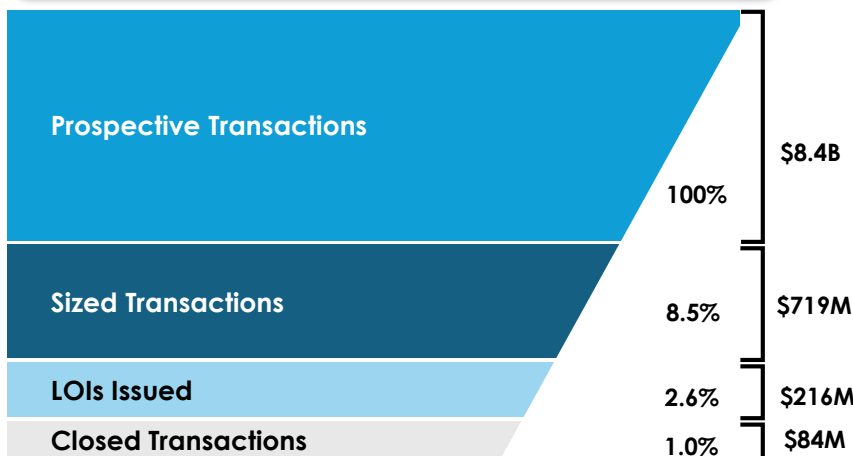

#### DRIVING DEMAND & GROWTH OF PRIVATE CREDIT LENDERS

The Great Financial Crisis of 2008 triggered increased banking regulations and legislative requirements that resulted in tighter credit conditions across the traditional bank lending market.

Tighter bank regulations have resulted in a retrenchment of capital from traditional sources, creating a compelling investment opportunity for experienced private credit lenders to fill the lending void in the generation of highly attractive risk-adjusted returns. **Absent unprecedented banking relief and significant legislative changes, the attractiveness of the private credit market is expected to persist.**

The more than \$8.4B in deal flow activity during 2024 allows for extreme selectivity and optimization in the deployment of capital. The strategy is designed to be scalable to capitalize on the market opportunities.

### Portfolio Composition

Our lending strategy seeks diversification across geographical regions, industries, sectors, sponsors, and property types: **multifamily, industrial, retail, self-storage, manufactured housing, medical office, mixed-use, office and select hospitality**, but will strategically and tactically tilt based on the attractiveness of the market investment opportunities.

### Positioned to Meet Three Distinct Needs

- 1 INVESTORS need for **DISTRIBUTIONS & INCOME**
- 2 CRE need for **INVESTMENT CAPITAL**
- 3 INDUSTRY need for **TRANSPARENCY**

### Transactional Highlights

## Oak Parallel Bridge Credit Fund Offering

The Fund is designed to provide attractive current income and solid risk-adjusted returns with low correlation to broader financial markets. Compared to public debt, private credit in the CRE sector has historically proven to deliver higher yields with enhanced diversification while minimizing the marked-to-market volatility. Capital preservation and down-side protection are key to optimizing the performance of the strategy. First lien, senior position CRE debt is in a priority position in the event of a default, which provides a higher degree of down-side protection during times of financial market distress.

OAK's management team has extensive lending, asset and investment management, servicing, and workout experience. Over the past three decades, the team has navigated through eight market cycles and successfully raised, deployed, and exited in excess of \$10 billion of investor capital.

## Strategic Areas of Investment

US commercial real estate debt represents a large, diverse market with over \$4.7 trillion in outstanding bank debt.\*

### Sectors:

- Multifamily
- Light Industrial
- Select Retail
- Mixed-Use
- Warehouse

## Disclaimer

This summary is being distributed on a confidential basis and is intended only for the use of prospective investors that have received this summary from Oak Real Estate Partners ("Sponsor"). It may not be reproduced (in whole or in part) nor may its contents be divulged to any other person without the prior written consent of Sponsor. Any proposed terms discussed herein are subject to the terms set forth in the definitive agreements and private placement memorandum of Oak Parallel Bridge Credit Fund, LLC (the "Fund").

This summary is for discussion purposes only, may not be relied upon in evaluating the merits of participating in the Fund and is qualified in its entirety by the information contained in the private placement memorandum and definitive agreements of the Fund. This summary does not constitute an offer to sell or a solicitation of an offer to buy any securities.

This investment will involve significant risks and investors should review the "Risk Factors" specified in the Fund's private placement memorandum. Investors must have the financial ability and willingness to accept the risks and lack of liquidity characteristics of the investment described herein. There will be no public market for any interest in the Fund. This summary does not constitute and should not be interpreted as either a recommendation or advice, including legal, tax or accounting advice.

The Interests are suitable for investors who have no need for liquidity in this investment. The offering is a "Best Efforts" offering, and if the Fund is unable to raise substantial capital, the Fund may be limited in the number and types of investments it is able to make, which could have a negative effect on diversification and investment results.

Success is dependent on the performance of OPBC GP, LLC (the "GP"), which is the Managing Member the Fund, as well as individuals that are employees of the Sponsor or its affiliates. The Company depends on key personnel and its affiliates, the loss of any of whom could be detrimental to the Company's business. The Company will pay substantial fees and expenses to the GP or its affiliates and broker-dealers.

Investors will not have an opportunity to evaluate investments before they are made. The Company will be subject to conflicts of interest arising out of relationships among GP, and their affiliates and employees. Real estate-related investments, including joint ventures, senior leverage and real estate-related securities, involve substantial risks.

There are substantial risks associated with making loans secured by real estate, and real estate investments may involve additional risks. Commercial real estate related investments that are secured by real property are subject to delinquency, foreclosure and loss which could negatively impact investors. The ability of a borrower to repay a loan secured by income producing property is dependent on the successful operation of the property. Economic, market and regulatory changes that impact the real estate market generally may decrease the value of the Fund's investments and weaken operating results.

Properties that have vacancies could be difficult to sell, which could negatively impact investors. The Fund will likely obtain debt financing, which may increase costs, and may limit the Fund's ability to pay interest and or principal to investors. The Fund indirectly depends on tenants in properties securing its loans for revenue; therefore, non-renewals, lease terminations, or lease defaults could reduce revenue and limit the Fund's ability to pay interest or principal to investors.

Certain information contained in this presentation constitutes "forward-looking statements," which can be identified by the use of forward-looking terminology such as "may," "will," "should," "expect," "anticipate," "project," "estimate," "intend," "seeks," "intends," "continue" or "believe," or the negatives thereof, or other variations thereon, or other comparable terminology. Due to various risks and uncertainties, actual events or results or the actual performance of the Fund may differ materially from those reflected or contemplated in such forward-looking statements. No representation or warranty is made as to future performance or such forward-looking statements.

Prior performance of the Sponsor, the Fund or any of its affiliates is not indicative of future results. There is no assurance that future investments will achieve comparable results. Alternative investment performance can be volatile and real estate-related investments may involve additional risks. There is no assurance that the Company objectives will be achieved.
